

NITRO CONTRAST

FTP instructions

You would need to access the Nitro FTP site via an FTP client such as Filezilla and CyberDuck. Once logged in with the credentials below, simply upload your files.

For your own security and privacy, we will email you a direct download link with your images, once the job is complete.

Domain:	ftp.nitrocontrast.com
Username:	nitroFTPuser
Password:	!Nitr0

If you do not have an FTP client installed, we recommend these two free applications, which work both for Mac & PC:

Filezilla: <https://filezilla-project.org/download.php?type=client>

CyberDuck: <https://cyberduck.io/?l=en>

For questions, please call 855.561.8557 or email us at info@nitrocontrast.com.
